

Thursday, August 11th

Session 8: Sponsors' Presentations & Questions to the Manufacturer

Chair: **Joachim Wegener**

Time: 14:30 – 16:30

Lecture Hall: H46

14:30	Applied BioPhysics Inc (USA) ECIS – A label-free non-invasive method to quantify cell behavior.
14:45	Nanion GmbH (G) Impedance toxicity screening of cardiomyocytes and hepatocytes.
15:00	Ibidi GmbH (G) Combining impedance measurements with live cell imaging.
15:15	Acea Bioscience (USA) tba
15:30	nanoAnalytics (G) cellZscope: Membrane-supported cell cultures analyzed by impedance spectroscopy.
15:45	HP-Med GmbH (G) Intelligent Microplate Reader (IMR): An automated screening platform for label-free assays with living cells and tissue samples.
16:00	Cellasys GmbH (G) IMOLA-IVD: A modular solution for microphysiometry.
16:15	ScioSpec GmbH (G) tba
16:30	Coffee & Refreshments
